

Innovative Fullstack Engineer

Bachir Kurdi

Fullstack engineer with 6 years of experience transforming business requirements into robust and optimized architectures. Proficient in collaborating within cross-functional teams, utilizing JavaScript frameworks such as Vue, React, and Angular on the front-end, and Node.js on the back-end. Strong experience with DevOps tools, including AWS, Docker, and other CI/CD tools. Skilled in both end-to-end (E2E) testing and unit testing. With a solid foundation in Computer Science and Engineering, adept at managing student assistants and contributing to Lean management practices. Eager to bring strategic innovation and advanced architectural expertise to a dynamic team.
